The Windows taskbar at the bottom of the screen features a search bar on the left, followed by task view and several pinned application icons including File Explorer, Microsoft Store, and Google Chrome. On the right side of the taskbar, system icons for network, volume, and battery are visible, along with the current time and date: 19:07, 27-08-2026.

The screenshot shows a web-based IDE interface. On the left is a sidebar with a 'Files' panel containing a file explorer showing a 'main' branch and a '.gitattributes' file. Below this is a search bar labeled 'Go to file'. The main area is a code editor for 'hello-world-c / README.md' in the 'main' branch. It has 'Edit' and 'Preview' tabs, and settings for 'Spaces' (2) and 'No wrap'. The editor contains a single line of text: '1 | Enter file contents here'. At the bottom, there is a footer with instructions: 'Use Control + Shift + m to toggle the tab key moving focus. Alternatively, use esc then tab to move to the next interactive element on the page.' and 'Attach files by dragging & dropping, selecting or pasting them.'
